Used throughout the world for over 30 years. Command Sourcing is proud to offer the Marathon Engineering Corporation's Gold Medal Safety Padding with unparalleled history of providing owners with a safe, durable, and easily maintained padded

environment. This padding is specifically formulated for use in jail cells, time-out rooms, and psychiatric rooms where violent behavior may result in injury to the inmate, student or patient, or in damage to the room. This is designed to be self extinguishing, as demonstrated by extensive

fire testing. It can be installed in existing cell or room or be included in new ones.
