Command Sourcing is proud to offer a product that can reduce risk of injury and litigation in your facility. The Stainless Steel Security Combination Units are consistently selected by specifiers for prisons, holding cells and detention facilities that require optimal vandal

resistance. They incorporate a fully welded stainless steel toilet and wash basin. The toilet has a contraband-proof flushing rim and one piece pressed bowl that provides water efficient flushing. A ligature-proof security waste is supplied with the basin and optional extras

include security faucet hardware, access panel and toilet pan flushing mechanism. Ask for more information or a quote today!
