

Surveillance Solutions

Settling for a dark, cramped, and airless surveillance vehicle? Or need to convert a vehicle into a custom solution for your agency?

- We offer fully customized and in-house manufactured Ford Transits, built to maximize comfort and blend in with your environment.
- Models feature unique divided cabins with two front-facing seats, four 22" flat-screen monitors, and a dedicated Tech Room with optional storage
- Alternatively, we offer covert portable video recording systems that agencies can drop into ANY vehicle with batteries to use as an unmanned platform with remote access via mobile device or computer. A great lower cost option.
