Command Sourcing is proud to offer a time saving solution for accepting money for inmates at your jail. Your facility's Accounting Department will benefit from the Booking Money Manager. The Money Manager produces reports necessary for your

accounting department to keep track of new account opening, and the amount of money being deposited into each account. Cash no longer has to change hands multiple times to place money in an inmate's account. The Money Manager deposits the money in one easy step.

These products are as easy to use as a vending machine, yet can save hundreds of correctional facility officer hours per year. See how one of these solutions can help your facility today!
